

HET SHAH

New York, NY | (646) 702-2100 | het.shah@stern.nyu.edu | <https://www.linkedin.com/in/het-shah-0205/>

EDUCATION

NEW YORK UNIVERSITY, Leonard N. Stern School of Business

New York, NY

Master of Business Administration

May 2026

Specialization in Strategy, Product Management and Finance; GMAT: 750 (98th percentile)

- Honors: Dean's List
- Microsoft AI Hackathon(Runners-up); Developed AI-driven platform to record and optimize employee workflows

DAIICT

Gandhinagar, India

Bachelor of Technology in Information and Communication Technology

May 2019

- Captained the soccer team to victory in 5 national tournaments and coached the women's team to win a 64-team event. Organized annual sports tournaments with over 200 participants and managed 12 team members

EXPERIENCE

ESUSU - Credit-Building Fintech (Mortgage & Consumer Lending)

New York, NY

Product Manager Intern

Summer 2025

- Owned 0→1 strategy for AI-powered mortgage underwriting product leveraging verified rental cash-flow data; defined product vision and roadmap aligned with compliance and lending partner requirements
- Built competitive landscape and vertical-entry analysis benchmarking alternative income verification, embedded finance, and neobank models to inform roadmap prioritization and long-term product positioning
- Developed data-backed market entry recommendations, improving pilot-to-contract conversion by 22%; used SQL-driven analysis and user feedback to validate assumptions and prioritize features
- Partnered with Risk, Compliance, and external mortgage lenders to design scalable underwriting decision frameworks, translating regulatory and business constraints into clear engineering requirements

GOLDMAN SACHS

Bangalore, India

Associate (Product Manager)

Jan 2022 - May 2024

- Led a firmwide, multi-quarter capital optimization initiative across trading and secured financing businesses, improving capital buffer efficiency by \$1.2B and driving ~\$25M in annual P&L impact
- Owned end-to-end strategic workstreams from problem definition and hypothesis development through analysis and execution, coordinating Risk, Trading, Legal, Compliance, and Engineering across 10+ regions
- Designed experimentation frameworks balancing analytical rigor, regulatory constraints, and operational complexity — accelerating insight generation by 32% and improving adoption of new capital strategies
- Supported cross-border regulatory execution during Goldman Sachs' China entity acquisition by translating jurisdiction-specific requirements into scalable system and reporting models
- Conducted benchmarking of global capital and risk management practices to inform automation improvements, reducing manual effort by 30% and improving decision speed and transparency

Analyst (Software Engineer)

Aug 2019 - Dec 2021

- Partnered with Controllers and Credit teams to redesign global risk assessment and monitoring workflows using SQL and API integrations, reducing cycle time from 8 hours to 2 hours

MBA CONSULTING WORK

- **Endless Frontier Labs (with Lightning Rod Labs):** Conducted market discovery, customer segmentation, and go-to-market analysis for an AI infrastructure and training data startup, evaluating vertical entry opportunities, pricing hypotheses, and enterprise adoption drivers
- **Stern Signature Project (with Quantit, Korea):** Led strategy and execution workstream for a Seoul-based AI FinTech firm focused on automated investment and asset management platforms; assessed growth opportunities, competitive positioning, and potential international expansion through customer research and industry analysis
- **EnerzAI (via NYU AI Innovation Accelerator):** Developed commercialization strategy, pricing framework, and execution roadmap for an ML inference optimization platform as part of an accelerator-sponsored engagement
